I bear witness to an unclear reality
I won't wait for the pure satisfaction it's building
Forged to perfection
Tape my eyes open for the oncoming storm

No!

I can sense there's still fear in the air
As humanity starts through your flesh
Their skin starts to rot, beginning to crack

No one cares anymore
Your false pretenses starting to fade
Burn! With your self righteous lies
Oh how all the pitiful will fall

Sister! Sister Charlatan no one cares anymore
I no longer admire you
There's no one left to impress
Sister! Sister Charlatan!
I no longer admire you
the way you burned them all live
fire in your eyes
I will always remember
How fast the beautiful will fall
Walls come crashing down

It was all just a lie
You were so good at making your mark
and running away
Forge a smile with your second face

Sister Charlatan, I no longer admire you

Go!

I no longer admire you
The way you burned them all alive
Fire in your eyes
I will always remember
How fast the beautiful will fall
Walls come crashing down

I no longer admire you
Sister, Sister Charlatan
I no longer admire you
This is my declaration
Sister Charlatan

I no longer admire you
This is my declaration
Sister Charlatan
