It's been three fucking days  
Since sleep has taken me away  
I found the remedy to erase you from my head  
I can't find a pulse to feel this, I'll never feel again

So say your last goodbyes and I'm taking back my sins  
I'll take back the heart, I should of never let, never let  
you in  
So say your last goodbyes, today I'm not coming back  
I won't crawl back again

I never loved you, I never cared, I never loved you  
You won't fuck the life from me again

Now your hands are filthy  
With narcissistic identities  
A slave, another junkie  
You're haunting the streets you're looking to feed

But I won't be your carcass  
You can't add me to your pile of dead bodies  
I'm driving the nails through your hands  
So you can't fuck the life out of me

You can't fuck the life out of me  
You won't fuck the life out of me

So say your last goodbyes and I'm taking back my sins  
I'll take back the heart, I should of never let, never let  
you in  
So say your last goodbyes, today I'm not coming back  
I won't crawl back again

I never loved you, I never cared, I never loved you  
You won't fuck the life out of me  
You can't fuck the life out of me  
You can't fuck the life out of me
