If I passed your way someday
Knowing you were so lonely
Could I talk to you and say
Do you wanna spend the night with me
And we could tend the night away
And when the time is right here's what I say

Chorus:

Baby if I was your man,
Yes I give you love and understanding
Cu'z there's no doubt here in my mind
Girl I wanna spend my life with you, and only you,
Girl I wanna spend my life with you and only you

And could we take a little strong
Girl I wanna get to know you
Like no one else I will be true
Darlin I will never hurt you
And if we fall in love someday
And I can promise you
I'll be here to stay

(Repeat Chorus)
(Repeat II and chorus)
Till fade...
