Chorus:

Girl you are my sensation
And you are my only one

Verse 1:

Girl I think of you, while you're so far away
The way I'm feeling inside, if only words could explain
I'd like to hold you close, keep you warm through the
night
When you're not here with me, you're always on my
mind

Chorus:

Girl you are my sensation
And you are my only one
Girl you are my sensation
And you are my only one

Verse 2:

Girl a million to one, that's what you'll always be
And every beat of my heart, I promise I'll never leave
I'd like to hold you close, and keep you right by my side
And when I look in your eyes, I get lost in a dream

Chorus:

Girl you are my sensation
And you are my only one
Girl you are my sensation
And you are my only one

Verse 2:
