"I Can See You"

I can see you
I can hear you
You just wanna fuck up my life
I can feel you
I can taste you
You just wanna fuck up my life

I can see you
I can hear you
You just wanna fuck up my life
And I know you
I destroy you
I want you out of my life

No
I won't back down
No
I won't back down

I can see you
I can hear you
You just wanna fuck up my life
I believed you
I followed you
I let you take me down

No
I won't back down
No
I won't back down

I won't back down
I won't back down
I won't back down
I won't back down
