Over and over again  
I see no change in this fight  
Just another night filled  
With your blank stares and your spite

Back to where it all began  
The future's never been looking so grim  
Being ripped apart again  
As you are dragging me  
Down to your hell with you  
Down to your hell with you

What am I supposed to do?

She hides behind a mask of lies  
(She hides behind, she hides behind)  
No one can save you  
No one to hear your cries [x2]

Back and forth we struggle  
To find a common ground  
The chances of reconciling  
Are lost and can't be found

Back to where it all began  
I'm better off being alone  
'Cause I've been ripped apart again  
As you are dragging me  
Down to your hell with you  
Down to your hell with you

What am I supposed to do?

She hides behind a mask of lies  
(She hides behind, she hides behind)  
No one can save you  
No one to hear your cries [x2]

Relapse...  
Drag me down  
Drag me down

She hides behind a mask of lies  
She hides behind a mask of lies

She hides behind a mask of lies  
(She hides behind, she hides behind)  
No one can save you  
No one to hear your cries [x2]
