I don't care What the trend is, what is in fashion But I listen to music and watch you

Feel the power what I give you Let it be your blood and scream it with me Listen this is the brother song

The brother song The brother song The brother song

Step among us So you belong to us and if you hear this song You won't be alone, where ever you are

We accept you, it doesn't matter who you are There are no borders and no fucking rules Listen this is the brother song

The brother song The brother song The brother song

We break up the barbed wire The guitar the drums destroy together We smash the filth to pieces

Enough of them, patience is gone Listen ans scream Here we, are playing really loud We want so see you are with us too We defeat everything, no obstacles Just pure strength this is the only rule

Listen And scream Listen this is the brother song

The brother song The brother song The brother song

Listen this is the brother song
