Would you come and swoop me?  
I'm in your city  
Would you come and swoop me?

Baby, I'm in your city  
(I'm in your city)  
Baby, would you come and swoop me?  
(Get's my freak on, no)  
(Would you come and swoop me girl?)

I get my sneak on hop in the brome  
Call baby on the cellular, wassup? I'm in your area  
And is it cool tonight for you to like get away?  
Meet me down at the parkin' lot at safe way  
But not alone, you might want to bring your friends  
But make sho' you and her don't forget your ends  
I can't wait to see the tattoo of your kitten  
It's me and 'vitti in the night we city 2 city

Baby, I'm in your city  
(I'm in your city)  
Baby, would you come and swoop me?  
(Would you come and swoop me girl?)

We checked in, in the suite up in Hollywood  
And the bubble bath, did your playa Patna good?  
She brought lingerie, pumps and body oil  
Scented candles and rubbed on my love handles  
I'm only in for one night, my flight'll be out in the  
mornin'  
I better get it before I start snorin'  
She was already up on top  
Goin' buck for the whip cream, cherries and nuts

That's why little sister loved to give it up  
Two in the mornin' I was all in her  
You know I had to be the creeper  
She kept jockin', I have the fever

Baby, I'm in your city  
(I'm in your city)  
Baby, would you come and swoop me?

(Would you come and swoop me girl?)

Five in the mornin' hit me with the wakeup call  
Whole room smellin' just like alcohol  
I had a ball but now I gotta giddy y'all  
I gotta a show in pine bluff Arkansas  
And I must say the stay, was all gravy  
And keep it like that 'til I get back baby  
And maybe next time, we can take it to the 'nitti  
It's me and 'vitti in the night we city 2 city

Baby, I'm in your city  
(I'm in your city)  
Baby, would you come and swoop me?  
(Would you come and swoop me girl?)

Yeah, it's like uh  
Me and my cousins hit the airport you know  
Just touched down, tryin' to get somethin' crackin' you  
know  
Check into this motel doin' what do we do?

Baby, I'm in your city  
Baby, would you come and swoop me?  
(Would you come and swoop me girl?)

I'm in your city  
Would you come and swoop me?  
Would you come?  
Would you come and swoop me girl?
