I used to think about immature things
you know like do you love me, do you want me, are you
gonna
call me like you said you would, is this really your real
phone number
But you know I'm a man now baby a grown man and I
came a long way
and experience taught me one thing... taught me to
hold on to my love

Vs 1

Sometimes i just can't help thinkin livin without you
baby see
Sometimes i just can't live cryin about you baby
I'm not worried bout a doggone thing, I'll take anything
you brang
although i love the sunshine, I still accept the rain.
Cause when I'm in my lonely mood and I just can't be
with you
I tried everything that i can find in my mind, but there is
no substitute
Thinkin all that life would be when u not around
I just could not find my way, I wouldn't even know up
from down
But since I had u in my life all things could be found
strong and true
all coming from you...You
Chorus
I call your name girl
whenever i am lonely baby
I call your name
when i feel the need of love
I think of you.. it eases the pain
take away the strain

VS2

I don't worry what my people say in my life today
althought they try to say u not the one for me
I love you anyway
Cause their intentions might be cool if what they say
was true

But there's more to you than they can ever see
and they don't even know you

Thinkin all that life would be when you not around
I just could not find my way I wouldn't even know up
from down
since I had u in my life all things could be found strong
and true
coming from you..You

repeat chorus twice

sometimes i get lonely baby..i just can't seem to help
myself
for not wanting to be alone so i call your name i call
your name

I do u do birds and bees do too i love you and you love
me
and i know woowooowooo i call your name and it
eases the pain
see i just don't feel all by myself tonight
seem like someone else is out there oh thinkin of
holding somone else tight
so u know where i'm coming from... oh when i'm lonely
when I'm discouraged
I I call your name
there is no substitute for you
no one could take your place, youre more than they can
ever see
that's why i call your name

repeat chorus

da da da de da la la la

I do u do birds and bees do too i love you and you love
me and i know
woo woo woo wooo
