"Joyful"

Visit "[Joyful](#)" on MotoLyrics.com

Getting crazy, don't faze me, ask me why and I ask you
why not
It's our symptom of human nature,
when things are falling apart, they turn into
Disappointments, all there seems lessons for the heart
baby
And no I wouldn't trade you for the world
I wanna hit the end before what we start, girl listen to
me
Stop roaming round, settle down you can't erase this,
You got me and I got you, so don't be afraid to lose,
appreciate it

It's so joyful feeling the pain again
I get myself in trouble whenever I try to resist
I learned to embrace the struggle whether I loose or
win
I'm living indeed so joyful to feel the pain and love
again

Now here's a message for the young and restless
It might take you some time to really get it
Don't take your baby for granted
Sometimes you gotta give a lot to get a little bit, so
Stop roll me round, settle down you can't replace
What you can never gonna give, hear the sound in your
heart,
You better try to win cause you got a lot to lose
So it's really up to you, to appreciate it

It's so joyful feeling the pain again
I get myself in trouble whenever I try to resist
I learned to embrace the struggle whether I loose or
win
I'm living indeed so joyful here I go again,
I'm already knowin' what I gotta know
So I'm opening out to you,
I can feel you now, and I need you to show me how
I feel just like a flower in the rain
Who waits for the sun to shine again, but I appreciate
you

It's so joyful feeling the pain again
I get myself in trouble whenever I try to resist
I learned to embrace the struggle whether I loose or
win
I'm living indeed so joyful to feel the pain and love
again

It's so joyful feeling the pain again
I get myself in trouble whenever I try to resist
I learned to embrace the struggle whether I loose or
win
I'm living indeed so joyful to feel the pain

Being in love again, oh yeah, I'm living my life again
This time I'm gonna win, this time I'm gonna win
I'm already knowin'... baby

Guess I better let it flow, tears in my eyes, there's no
surprise baby,
Can't shake it baby, guess I better let it flow, a, baby?
Just let it be, this was supposed to be, don't try to
change it
Baby just let it be, yeah baby
