Yeah, so sadâ€¦ there's another sad song, oh yeah  
Sick and tired of sitting in this (?) staring at the man in  
the mirror  
Ever since that she left I felt a beat down in my chest  
heart  
So many scars I can't remove it, it's so hard to get  
through it  
And hitin' the club won't do it

I'm in this empty room playing my piano  
Singing nothing but sad songs, sad songs  
I'm so alone no one's here but these battles  
O what a sad song, sad song

Shouldn't have got up on my knee yeah  
Make you feel like you were the only one I needed  
Girl I gave you my heart for the keeping  
All the love I put in your heart was deleted, yeah

Baby you took advantage, look at me damaged  
It's not how we planned it, yeah  
The lights are down, no one's around, tell me what is  
all about  
The tears rolled down my face, time just won't erase  
What we had ain't comin' back, stuck in the past what  
the hell was that?  
Girl I miss you, why did you quit on?

I'm in this empty room playing my piano  
Singing nothing but sad songs, sad songs  
I'm so alone no one's here but these battles  
O what a sad song, sad song

And the melody that I tender play, started when you  
left  
And the key of loneliness I can't resist, hoping for your  
best  
But just know that the door closes when you leave  
Only thing here is these memories and the sad songs  
haunting me

I'm in this empty room playing my piano  
Singing nothing but sad songs, sad songs  
I'm so alone no one's here but these battles  
O what a sad song, sad song

Sad sad sad sad songs [x3]
