Here we are we're on this ride to nowhere
On this road to somewhere we have never been before
We'll be all right
As long as we're together

We're like the little people from the little places
All together searching for that bigger constellation
You know we're all right
As long as we're together

[Chorus:]

What a union we could be if we just had the power
What a moment we could seize in our finest hour
Everything in time happens in this light
Though our hands are tied
We will still survive

Well here we are and we've climbed the mountain
Now we've seen the river but there's poison in the water
Say it's all right
If we just drink together

Well we've seen the road and we've seen the signs
Still we march in single file like cattle to the slaughter
Yes it's all right
As long as we're together

[Chorus:]

What a union we could be if we just had the power

What a moment we could seize in our finest hour
Everything in time happens in this light
Though our hands are tied
We will still survive
We will still survive
We can stay alive

Well here we are on this ride to nowhere
Road to somewhere we have never been before
We'll be all right
As long as we're together
And we'll be all right

As long as we're together
We'll be all right
As long as we're together

[Chorus:]

WHAT a union we could be if we just had the power
What a moment we could seize in our finest hour
Everything in time happens in this light
Though our hands are tied
We will still survive

Taste the music of my soul
Tell me that it's sour
You could rain on my parade
But you'll never kill the flower
Feed me all the lies
Waiting for rewind
Choke us w/ your vines
We will still survive
We will still survive
We can stay alive
