You came all this way to see me  
There must be something I should know  
Did you come here just to leave me?  
'Cause I don't wanna let you go

I know you need more from me  
Than I can give, so now we'll see

We can get along as real good friends  
There's no need to say goodbye  
Maybe better off as real good friends  
So keep this love alive

Too much time and distance  
Is what we were up against  
And we didn't wanna listen  
To the advice of our friends

They said this can't last too long  
They were right, they were also wrong

'Cause now we're gonna be  
Two real good friends  
Even closer than before  
'Cause that's the way I think  
It should've always been  
But we just wanted more

From the first time that we made eyes  
We knew there was something there  
If this is the last time  
Then let's pretend we never met  
So we can start again

We can learn how to be  
Real good friends  
Even closer than before  
'Cause that's the way we knew  
It should've always been  
And now and now we have it all

Ain't it better now that

We're real good friends?  
Even closer than before  
We'll never have to worry  
How the story ends  
We'll just keep on wanting more

I'll be there for you all the time now  
We'll never have to worry  
How the story ends
