No one has all the answers
For the question on your mind
You just want to know the reasons
The reasons why

No one said it would be easy
Because no rose garden is in this life
They can't stop you from believing
You can turn back time
In your mind

Deep in side you here 'em say
Live your life and walk away
Don't wait any longer
Cause it won't make you stronger
Live your life and walk away

Every passing day reminds you
Every memory seems to find your pain
But hopefully tears will wash behind you
Just like rain

Every road you take to mending
Seems a million miles away
Though the hurt seems never ending
It can walk away
You can fly away

Deep in side you here 'em say
Live your life and walk away
Don't wait any longer
Cause it won't make you stronger
Live your life and walk away

Deep in side you here 'em say
Live your life and walk away
Don't wait any longer
Cause it won't make you stronger
Live your life and walk away
