Blessid Union Of Souls
"We'll Sleep When We're Dead"

Let the light shine in.
Cause we are not alone.
We're Not Alone.
Let the light shine in.
Cause we are not alone.
We're Not Alone.

(We will tear away)
(We will tear away)
This awful feeling, lets start the bleeding.
(We will wash away)
(We will wash away)
(All of your doubt)
This will be the last time that...

You're never going to hurt again.
I'll never sing this song without you.
Without you.
Remember the way that it felt.

You're never going to hurt again.
I'll never sing this song.
Remember the day.
Remember.

Hide your makeshift hearts.
We're taken aim.
(We're taken aim)
And we won't be leaving.

(Hide your)
Makeshift hearts.
We're taken aim, taken aim.
We won't be leaving.

(We will tear away)
(We will tear away)
This awful feeling, lets start the bleeding.
(We will wash away)
(We will wash away)
(All of Your doubt)

This will be the last time that...

You're never going to hurt again.
I'll never sing this song without you.
(Without you)
Remember the way that it felt.

You're never going to hurt again.
I'll never sing this song.
Remember the day.
Remember.

Let your, light shine in tonight, tonight, tonight.

All alone is where we've been before.
All alone is where we started.
All alone is where we've been before.
All alone is where we started.
(All alone is where we've been before)
(All alone is where we started)
(All alone is where we've been before)
(All alone is where we started)

We'll be testing the martyrs,
We'll be testing the martyrs.
And bringing hell and high waters,
And bringing hell and high waters.
We'll be testing the martyrs,
We'll be testing the martyrs.
(And bringing hell and high waters)
And bringing hell and high waters
