Video Video saved the day
Everyone's looking for a game to play
no matter what it takes
Don't matter if we're hangin' around
We're gonna take a chance
Gonna help ourselves to the sound

Sipping my wine at the closing stage
Golf Wing Polos are the latest craze
I could never understand
never understand what went wrong
You know I hate to say but we're never gonna get that
far

I've been going nowhere
100 miles an hour
I've been going nowhere
round and round and round
I've been saving myself for a high speed Saturday
night

I met this girl in a parking lot
She asked me if I'd ever been caught
Everyone escapes, everyone escapes from the past
But they never mention, how to get back on the track

I've been going nowhere
100 miles an hour
I've been going nowhere
round and round and round
I've been saving myself for a high speed Saturday
night
