If we're going down  
We all go down together  
And that's the way it is, and I know  
We'll stand like this forever  
Until the day I'm standing by your side

We've come so far, don't let this slip away  
And I can't let go, of what you've done  
We've tried so hard, we've pray for better days  
Wait don't let go, don't let this slip away

I just want you to know  
If we're going down  
We all go down together  
And that's the way it is, and I know  
We'll stand like this forever  
Until the day I'm standing by your side

There's something left

There's something left for you here [2x]

Oh!

If we're going down  
We all go down together  
And that's the way it is, and I know  
We'll stand like this forever  
Until the day I'm standing by your side [2x]

We've come so far, we've tried so hard  
Wait don't let go, don't let this slip away
