(feat. Daryl Palumbo, Camu Tao)

[Verse 1:]

I became for you when you would ask, telepath
Your too young to ask out loud, I'm too old and I know that
I can talk like you've not heard, I know weapons, you
think words
I expose you to these terms, you still chose to roll on
her
Have to work but I'm so fast, your so open, I'm so crass
I'm too weak to hold that back, you still thinking tree will
last
Can't imagine of my past, I just can't explain all that
I wish I could trade your place, so romantic full of faith
I must spare, I must learn, I refuse to be your first
First to put you in your place, first to make you speed
your pace
I'm a man now, good or bad, your a girl still, good for
you
Don't think this don't make me sad, this is something I
must do

[Hook:]

Keep your own time, leave me be, I'm tryin to spare you
Tryin to be ?? melodic, man on fire, ?? long gone, all
desire
Fuck you raw now, it's my fault
Fuck you raw dog, I can't stop
Should've listened, should've left
I can't stop unless you jet
It's so simple, open head, I will knit my savage threat
Help me help you, walk away, leave this on amazing
grace
/]
You don't know from pure disgrace, you still think I'm
here to save
I'm not even really here, I can't give what I can't take

[Verse 2:]

What a ride, what a slide under the door, what a score
You think I'm a genius, I know I'm a whore

What a time, what a climb in for our lives, whats in
store
You seen lit forever, all I see is war
I will pull your hair back, fuck you on the floor
Pour myself into the act, pour myself, oohoo I'm bad
Cause I know these magnets end, but telling you the
truth is sad
You deserve the ignorance and bliss that I still wish I
had
Don't you let me keep you here, don't ignore my
greatest fear
I need you to not need me you need not believe just
flee
I will put myself inside you, find some way to run and
hide you
I can't be responsible, do as I say, not as I do

[Hook:]

Keep your own time, leave me be, I'm tryin to spare you
Tryin to be ?? melodic, man on fire, ?? long gone, all
desire
Fuck you raw now, it's my fault
Fuck you raw dog, I can't stop
Should've listened, should've left
I can't stop unless you jet
It's so simple, open head, I will knit my savage threat
Help me help you, walk away, leave this on amazing
grace
You don't know from pure disgrace, you still think I'm
here to save
I'm not even really here, I can't give what I can't take

This is not my ego talkin, I know I'm no perfect raw
And I do love the way you lay there, I do like the way we
talk
Maybe I'm just condescending, maybe this thing isn't
wrong
Maybe you should lay right there, put your hands up in
the air

[Hook:]

Keep your own time, leave me be, I'm tryin to spare you
Tryin to be ?? melodic, man on fire, ?? long gone, all
desire
Fuck you raw now, it's my fault
Fuck you raw dog, I can't stop
Should've listened, should've left
I can't stop unless you jet
It's so simple, open head, I will knit my savage threat
Help me help you, walk away, leave this on amazing
grace

You don't know from pure disgrace, you still think I'm
here to save
I was never even really here, I can't give what I can't
take

[Fades out:]
You still think I'm here to save
