There like a feather you fell someone's heaven above
me

Floating so fickle tempting me teasing my ways
Thrown from its clutches I struggle to free what
escapes me

Absalom hanging like you I'm caught in between
Absalom hanging like you I'm caught in between

Heaven then earth, heaven between you

Release me untangle my hair
Absalom hanging like you I'm caught in between
Absalom hanging like you I'm caught in between

Heaven then earth, heaven between you

Patient I wait as I hold a small feather
That floated from somebody's heaven
