I don't know bout you, but I came here to party,
Tonight is your night, gonna find yourself somebody,
I say, hey pretty girl, do you wanna dance the night
away,
But you don't wanna fall in love,
You can save that for your rainy days

Chorus

Cos I'm feeling the heat [from your body],
Won't you get yourself close to me, uh huh,
When you move to the beat [gonna pick a body],
It's the ultimate fantasy, [back to the limbo]

Mama say, mama sa,
Switch the cross radar,
And let me get a little nearer,
So you can hear what I'm saying,
Just a little clearer,
I like the way you move,
Lady when you do,
You making me want to...
Come and dance with you,
Would you mind if I asked you to,
I say, hey pretty girl do you want to dance the night
away,
But I don't want to fall in love,
Gonna save that for my rainy day

Chorus

Cos I'm feeling the heat [from your body],
Won't you get yourself close to me, uh huh,
When you move to the beat [gonna pick a body],
It's the ultimate fantasy, [back to the limbo]

Rap

I feelin so damned limbofied,
With your hot lips and your limbo tights,
Don't stop, give me the sign,
And I'll come running,
Like Sam and Dave,
Hold on I'm coming,

Hot, hot, hot, in here,
Back to back let me shift a gear,
Turn up the system and get ready to roll,
Reverse your backside,
Let me lose control,
While out,
On the girl with the light eyes,
Ain't necessary but I'm feeling obliged,
It feels good being here with you,
And if you're feeling the same,
Let me hear you say oohh

Chorus

Cos I'm feeling the heat [from your body],
Won't you get yourself close to me, uh huh,
When you move to the beat [gonna pick a body],
It's the ultimate fantasy, [back to the limbo]

Clap your hands,
Take it up front, then to the side,
Nod your head,
Do you feel when our bodies synchronize,
Stomp your feet,
I want to see you shake it and bring it back down low,
Nice and slow,
Go back to the limbo

Clap your hands,
Take it up front, then to the side,
Nod your head,
Do you feel when our bodies synchronize,
Stomp your feet,
I want to see you shake it and bring it back down low,
Nice and slow,
Go back to the limbo
