Our world is cut to pieces  
We are endangered species  
All this fighting, this warring, this constant friction  
We fight for so called order  
We send our sons and daughters  
All this bloodshed, this hatred, this fucking slaughter

But there must be a way  
We can live without hate  
We don't have to fight for everything we've got  
Is this the price you want to pay

They feed us propaganda  
Disguise the real agenda  
It's all about money, the arms deals, the oil you greed  
for  
It's time for all religions  
To live without division  
It's our choice, hear out voice, scream until they listen

But there must be a way  
We can live without hate  
We don't have to fight for everything we've got  
Is this the price you want to pay  
Don't let the system tear us apart  
Open your eyes and you'll find your heart  
Be part of the cure and not the disease  
'cause how can you bleed if you ain't got a heart

But there must be a way  
We can live without hate  
We don't have to fight for everything we've got  
Is this the price you want to pay

Lay down your guns (lay down your lives)  
Lay down your bombs (lay down your pride)  
Lay down your arms (lay down for your country)  
Lay down your guns (lay down and die)

But there must be a way  
We can live without hate

We don't have to fight for everything we've got  
Is this the price you want to pay  
Don't let religions tear us apart  
Open your eyes and you'll find your heart  
Be part of the cure and not the disease  
'cause how can you bleed if you ain't got a heart
