Too much to pay for this 900-line
The ad says there's love over the wires but come on
Not when you pay by the minute
But I was so blind
I can't believe I was sweatin' all night
You made it sound like it was love at first sight
But how can I love by the minute

Stay on the line
Call girl I'll call you mine
Talk to me right
Kiss me and say goodnight
Stay on the line
Call girl I'll call you mine
Talk to me right
And I'll never say goodbye

I guess you know
I can't afford all this love on the phone
Maybe you know I can't afford to let go
Why won't you give me the time of day

Stay on the line
Call girl I'll call you mine
Talk to me right
Kiss me and say goodnight
Stay on the line
Call girl I'll call you mine
Talk to me right
And I'll never say goodbye

Talk to me right
And I'll never say goodbye
