You got me right where you wanted me
In the middle of a lack attack
I need a frontal lobotomy
'Cause I think I'm just about to crack
Baby I guess you got me on my back
But I'll be damned if I'm out for the count
I'll get up and I'll get you back

Beggin' please, baby

It's not over
You can go when you wanna go

It's not over
You can go when you wanna go
But not until I say so

It's not over
You can go when you wanna go
But not until I say so
It's not over
You can go when you wanna go
But not until I say so

It's not over
You can go when you wanna go
But not until I say so
It's not over
You can go when you wanna go
When you wanna go

It's not over
You can go when you wanna go
But not until I say so
It's...
