

Bleu **"Kiss Me"**

Visit "[Kiss Me](#)" on MotoLyrics.com

I see you there with a calico stare
And the chip on your shoulder is cold as a Frigidaire
But I believe in the power of heat
When the lips come together and move every part of
me

I need to feel somethin' I can believe
So I know that the lovin' is real
So come on a little closer and kiss me
Like you mean it, like you need it
Like you don't need another
Come and kiss me
Like you mean it, like you feel it
Like your very first lover
Come and kiss me

It's been a while since I saw you smile
We've been together forever and never been outta
style
But it's a bitch with the seven year itch
Comin' 'round like a frown, trying everything to bring
Us down

I need to feel somethin' I can believe
So I know that the lovin' is real
So come on a little closer and kiss me
Like you mean it, like you need it
Like you don't need another
Come and kiss me
Like you mean it, like you feel it
Like your very first lover
Come and kiss me
