make me, go ahead and make me  
you're never gonna fo-fo-fo-fo-forsake me  
why don't you make me

step into the light, say goodbye tonight  
there'll always be another day to walk in the sun  
sometimes everyone has a hand on a gun  
another day another dollar  
who will lead and who will follow

beating a dead horse, beating a dead horse  
beating a dead horse, beating a dead horse  
beating a dead horse, beating a dead horse to death

make me, go ahead and make me  
you're never gonna forsake me  
why don't you make me

step in to the light, say goodbye tonight  
there'll always be another chance to do it again  
from the fire into the pan, from your pocket into your  
hand  
another day another penny  
never thought we'd have so many

beating a dead horse, beating a dead horse  
beating a dead horse, beating a dead horse  
beating a dead horse, beating a dead horse to death

make me, go ahead and make me  
you're never gonna forsake me  
why don't you make me
