"Searchin' For The Satellites"

Visit "[Searchin' For The Satellites](#)" on MotoLyrics.com

Lyin' on our backs
We were swimmin' in the grass holdin' hands
Undressin' all the stars
Makin' constellations right in my backyard
Everything connected easy then

Searchin' for the satellites

Searchin' for the satellites
To me they all just look like stars

We stole your daddy's car
Hit the interstate and bought a deck of cards
Yellin' "gin" all night
Shinin' flashlights up into the drunken sky
Trying to find a meaning in our lives

Searchin' for the satellites

Searchin' for the satellites
To me they all just look like stars

We crumpled time into a ball
We squeezed the juice out of the stars
Drinkin' every drop of cosmic wine
We pissed it up into the air
And let the drops fly everywhere
Spreadin' out the temporary light

Lyin' on our backs
We were swimmin' in the grass holdin' hands
Undressin' all the stars
Makin' constellations right in my backyard
Everything connected easy then

Searchin' for the satellites

Searchin' for the satellites
To me they all just look like stars
