

Bleu "That's When I Crash"

Visit "[That's When I Crash](#)" on MotoLyrics.com

Just when everything was runnin' clean
I heard a big bang from the back of my brain
Like a rusty gear I'm grindin' at my teeth
Hopin' I don't break down 'til I'm outta the rain
Soakin' wet I can't forget what happened here
I get goin' pretty fast and

That's when I crash into my past
Just when I thought it might be gone at last
That's when I crash into my past
Just when I think I'm havin' my last laugh
That's when I crash

Swimmin' in and out of interstate
Watchin' the breaklights bleed like the look in my eye
Speedin' up to loose the love I left behind

But every headlight stares like it sees through my lie
With the windows down I never heart the sound
Breakin' on me with a blast and

That's when I crash into my past
Just when I thought it might be gone at last
That's when I crash into my past
Just when I think I'm havin' my last laugh
That's when I crash

La la la la la la la

Soakin' wet
I can't forget what happened here
I get goin' pretty fast
Before I notice

That's when I crash into my past
Just when I thought it might be gone at last
That's when I crash into my past
Just when I think I'm havin' my last laugh
That's when I crash
