Earn my pay  
As an extra for the day  
You goto play the game  
When your just another face  
When your just another waiter  
In some no name play

Make the grade  
I've got to load my resume  
But with a national commercial  
I should hear back by today  
I shoulde hear some time today  
About the part I'll play

I only play a part

Paint the town  
I've got to spread myself around  
Like a mini leonardo  
I could have you all kicked out  
I could have you all kicked out  
So don't you doubt my clout

I only play a part

I want it so  
I want it so  
I want it so bad

I only play a part  
Play a part
