"I Love Love"

I love love
But love doesn't love me
I got you
But you ain't good to me
I got all the things to make you happy
But you still deny me

Sticks and stones and things to fight for
And all the things you lose
You might want to hold on to

I got a few takers
I got a few breakers
And you got me
I got a few takes
I got a few breakers
And you got me

You're gonna wake up one morning
And find your clothes
Spread around the room
You know you like things dirty
It only gets loose
You're nothing
But all the things that you lose

I got a few takers
I got a few breakers
And you got me
I got a few takes
I got a few breakers
And you got me
