So Happy

I see you when you're lying next to me.
I see you when you smile at me.
You look so pale, cat caught your tail.
And you're tripping over your own tongue.
This ain't so fun...

And you left me drawing circles.
And you left me taking time.
And you left me for someones who looks like me, but
you look so happy...

Im going to give away the things you left for me;
your goldfish and your color TV.
You look surprised, like you lost your prize.
You act so numb, like you're son dumb, this ain't so
fun...

And you left me drawing circles.
And you left me taking time.
And you left me for someones who looks like me,
but you look so happy...
