My Kingston girl, my Kingston girl
My Kingston girl, my Kingston girl

She made me fall in love
With her, with her
Just by the way she smiled at me, yeah

She's all I ever wanted
And more, and more
Everything I desired her to be, you see

My Kingston girl my Kingston girl my Kingston girl
My Kingston girl Jah sent to me my Kingston girl
My Kingston girl no matter what's supposed to happen
my Kingston girl
My Kingston girl we were meant to be my Kingston girl

I looked into her eyes
And saw a part of me yeah
Got all of the signs
I knew she was my queen yeah

She made me fall in love
With her, with her
Just by the way she smiled at me, yeah

She's all I ever wanted
And more, and more
Everything I desired her to be, you see

(My Kingston girl...) I was struck by love
I didn't know nothing of
I was hit so quickly
By her vibes and her beauty

(My Kingston girl...) Nothing could go wrong
They took me along
Something so real
In only dreams they appear

She made me fall in love

With her, with her
Just by the way she smiled at me, yeah

She's all I ever wanted
And more, and more
Everything I desired her to be, you see

(Instrumental)

My Kingston girl
How beautiful you are
You make everything right
You help me see the light, yea

Oh how things should be
Oh how these things should be
When she smiled at me now

She made me fall in love
With her, with her
Just by the way she smiled at me, yeah

She's all I ever wanted
And more, and more
Everything I desired her to be, when he smiled at me
now

She made me fall in love
With her, with her
Just by the way she smiled at me, yeah

She's all I ever wanted
And more, and more
Everything I desired her to be, yeah

You see...

My Kingston girl...only with her...
Oh how things should be
Oh how these things should be
