Getting better, on your feet  
Take a look, kept in deceit  
A love like ours will never die

Break my bonds, break my back  
Not a lot to break apart  
A love like ours will never die  
A love like ours will never die

Break my bonds and break my back  
Not a lot to [break] apart  
A love like ours will never die  
A love like ours will never die

Getting better, on your knees  
Three times blind, could not please  
A love like ours will never die  
A love like ours will never die  
A love like ours will never die
