Friends, A warehouse pain  
They attack their own kind  
A thousand kids  
Who buried their parents

There's laughing outside  
We're locked out of the public eye

No Smooth Chords  
On the car radio  
No Smooth Chords  
On the car radio

We set the trash on fire  
And watch outside the door  
And men come up the pavement  
and out of the marquee

There's laughing outside  
We're locked out of the public eye

No smooth chords  
on the car radio  
No harsh chords  
on the car radio  
No smooth chords  
on the car radio  
No harsh chords  
on the car radio
