Can't move a step you'll get outta bounds

Can't run away from the fire

Besieged and bolted it can't be life

And you wait for the twilight coming on...

Struck bodies that lay down on the ground

Victims of hate whose aim can't be found

CHORUS

Can anybody stop these fights

We play the deaf and the blind

Torture and slaughters on TV screens

Use the remote everything's alright

Peace keeping countries can't change things

How can they be so blind not to see...

They're killing their race, brothers will die

Their god will follow in silence from the sky

CHORUS

Can anybody stop these fights

We play the deaf and the blind

Does anybody hear children crying

We play the deaf and the blind

They're killing their race, brothers will die

Their god will follow in silence from the sky

CHORUS

Can anybody stop these fights

We play the deaf and the blind

Does anybody hear children crying

We play the deaf and the blind
