Evil minds and bodies got hold of the feelings

I don't have anymore

So do try to forgive the excuses and silly lies i tell

I've forgot the joy of living for somebody to love

giving them all

The stolen kisses, the forbidden words

that nobody wants to say, nobody wants to say

CHORUS

I don't know why my own ego is lying

I don't know why i deny what i feel

I keep playing myself in a game that is over

I don't know why, i don't know why

Free from passion I've become a slave of myself

Free and not feeling love

Cynicism put you in a second place with me

And nothing is gonna change

Mental chaos is keeping me from being certain

of what i am looking for

Only you can make me understand

what nobody wants to say, nobody wants to say

CHORUS

I don't know why my own ego is lying

I don't know why i deny what i feel

I keep playing myself in a game that is over

Help me trying to stop my dying

Give me reason and be my guide

I'll never pretend again and again... if you help me...

CHORUS

I don't know why my own ego is lying

I don't know why i deny what i feel

I keep playing myself in a game that is over

I don't know why, i don't know why

I don't know why my own ego is lying

I don't know why i deny what i feel

I keep playing myself in a game that is over

Help me trying to stop my dying
