Evil minds and bodies got hold of the feelings  
I don't have anymore  
So do try to forgive the excuses and the silly lies I tell  
I've forgot the joy of living for somebody to love giving  
them all  
The stole kisses, the forbidden words  
That nobody wants to say, nobody wants to say  
I don't know why my own ego is lying  
I don't know why I deny what I fell  
I keep playing myself in a game that is over  
I don't know why, I don't know why  
Free from passion I've become a slave of myself  
Free and not feeling love  
Cynicism put you in a second place with me  
And nothing is gonna change  
Mental chaos is keeping me from behind certain  
Of what I am looking for  
Only you can make me understand  
What nobody wants to say, nobody wants to say  
I don't know why my own ego is lying  
I don't know why I deny what I fell  
I keep playing myself in a game that is over  
Help me trying to stop my dying  
Give me a reason and be my guide  
I'll never prented again and again... If you help me...  
I don't know why my own ego is lying  
I don't know why I deny what I fell  
I keep playing myself in a game that is over  
I don't know why, I don't know why  
I don't know why my own ego is lying  
I don't know why I deny what I fell  
I keep playing myself in a game that is over  
Help me trying to stop my dying
