Terrorizing rule

echoes of ruthless shots

men used as mere tools

to kill cops

Fear of accusing

fault not to be excused

hints are still refused

I am waiting for Strates to act and take

revenge, because innocents mourn

CHORUS

Up to now we have always seen

those who dared brandish a sword

die and leave hearts torn by grief

heroes alone can't win this war

No escape

after being envolved

in a frighening bloody game

only monsters can play

Politicians winning seats

as long as they protect

the cancer grown inside government's spine

Extorticion racket

drug smuggling, tons of the money

quickly cleaned by swiss banks

la Mafia says thanks!

I'm waiting for states to act and break

connections across the whole world

CHORUS

Up to now we have always seen

those who dared brandish a sword

die and leave hearts torn by grief

heroes alone can't win this war

heroes alone can't win this war
