Rush! Throw your last ace
don't stare at his face, tonight!
he'll crush you, he'll rape you
Go! don't trust at his smiles
don't enjoy for his lies, tonight!
he'll swallow, he'll suck your blood

Wake! From this nightmare
you need courage to stop and fight!
the screen now will erase you

So many hours and time ran away
just realize it drinks your soul

And in his face you see the cheat
and in his game you're a loser
And in his face you see the cheat
and in his game you're a loser

Now! try to wake up
escape from his jaws, tonight!
don't sigh now, don't cry now

So many hours and time ran away
just realize it drinks your soul

And in his face you see the cheat
and in his game you're a loser
And in his face you see the cheat
and in his game you're a loser
