(eleanor mcevoy)

Yes it's ok
No I don't mind
But take it slow 'cause I take
Time to unwind
And if you're nervous that's ok, hey,
So am i, so am i, so am i
Put it down to my biochemistry
Put it down to the way I love champagne
Put it down to compatibility
And put your lips to mine again
Put your lips to mine again
No I don't mind
And to be precise
If you did well, it would
Be kind of nice
So let that sparkle overflow,oh,
Don't be shy, don't be shy, don't be shy
Put it down to my biochemistry
Put it down to the way I love champagne
Put it down to compatibility
And put your lips to mine again
Put it down to my biochemistry
Put it down to the way I hate the rain
Put it down to compatibility
Put your lips to mine again
No I don't mind
And I'd like to say
I love the fact that first you
Asked anyway
So slide on over here to me,
Make me smile, make me smile, make me smile
Put it down to my biochemistry
Put it down to the way I love champagne
Put it down to compatibility
Put your lips to mine again
Put it down to my biochemistry
Put it down to the way I hate the rain
Put it down to compatibility
Put your lips to mine again
Put your lips to mine again

Yes it's ok
Really it's fine
Gentle shivers running down my spine
Have me feeling to my toes,
Satisfied, satisfied, satisfied
Put it down to my biochemistry
Put it down to the way I love champagne
Put it down to compatibility
Put your lips to mine again
Put it down to my biochemistry
Put it down to the way I hate the rain
Put it down to compatibility
Put your lips to mine again
