There's a problem that put her  
Into a shell. There's one reason  
To take different ways. You are  
Guilty in this emotive game and  
Remember you are laughing in vain...  
If you are thinking that we will give up...  
Wake up, wake up, you are dreaming!  
If you are thinking that we will forget...  
Wake up, wake up, you are dreaming!  
If you are thinking that you will divide...  
Wake up, wake up, you are dreaming!  
If you are thinking that she'll ruin her life...  
Wake up, wake up, you are dreaming!  
Wherever she may go... I'll be there too.  
If you are thinking that we will give up...  
Wake up, wake up, you are dreaming!  
If you are thinking that we will forget...  
Wake up, wake up, you are dreaming!  
If you are thinking that you will divide...  
Wake up, wake up, you are dreaming!  
If you are thinking that she'll ruin her life...  
Wake up, wake up, you are dreaming!  
Wherever she may go... I'll be there too.  
There's a problem that put her  
Into a shell. There's one reason  
To take different ways. You are  
Guilty in this emotive game, and  
Remember you are not the owner of her...  
If you are thinking that we will give up...  
Wake up, wake up, you are dreaming!  
If you are thinking that we will forget...  
Wake up, wake up, you are dreaming!  
If you are thinking that you will divide...  
Wake up, wake up, you are dreaming!  
If you are thinking that she'll ruin her life...  
Wake up, wake up, you are dreaming!  
Wherever she may go... I'll be there too
