The redemption could be found on her,  
when the shaking started to go too far.  
He used the violence hitting hard her head.  
Those past days weren't exactly good;  
but she was always smiling

Forgive me! I'm a maniac, I'm strange.  
Please turn me off.

She never asked the why of all your kicks,  
no reason for being drunk in front of the kids.  
All the words that you never ever said  
follow you and are withering your health,  
but she was always smiling.

Forgive me! I'm a maniac, I'm strange.  
Please turn me off.

She was always glad and happy,  
resigned to calm and suffering.  
Now you're hugging and old portrait,  
many years after those all days.  
Hey... I'm gonna say what you should have said to your  
wife.  
Please turn me off.  
Forgive me! I'm a maniac, I'm strange.  
Please turn me off.
