Just don't do that, please stop  
You're breaking me in two now  
Don't walk out, because... because I'd be so angry no  
sad  
Lets get married, let's play chess,  
And lets have kids, and lets get old  
And then we'll die,  
And we won't of even had to know each other then

That will save us  
That will save us then

If you did I mean I love you, wooo ahhh, that's a  
cliché  
But listen if it should hold more for you when it comes  
from me or  
Maybe I should hold more when coming to you?  
Like flowers and milk tray
