I saw a light  
And it shone  
Yeah it shone  
All around your head

My friend there's no time  
For all our plans  
Now you're gone  
There's no way back from here

Sometimes I just want to change  
But the people keep saying  
You can't give up your own ways

Can you tell me how I could be so blind to

Ever let you go, when I wanted you around?  
You know I was just waiting for you to come over  
I thought that you knew it

I never told you that I,  
I've been looking out for you  
I've been thinking about you  
I could, I could, I could, I could, I could, I could, I could  
not tell you
