Our hearts will love you, our lips will kiss you  
Our teeth will tear your flesh apart  
The will of death and destruction is on display  
Like a precious work of art.  
I said, "It's such a coup, it's nothing new, it's nothing  
we haven't seen.  
It's just a big to-do to punish you for being so unclean."

Our operators are standing by  
To provide you with excellent service  
The mother-tongue makes you you want to die  
And also understandably nervous  
I spoke with Gerald Ford on the Ouija board and he  
said the whole thing stinks.  
He said, "It's such a bore, it's nothing more than  
playing Tiddly-Winks."  
So,

Doom and gloom and doom and gloom  
Hounds of hell are howling at the moon  
And we're visiting Joe Biden's tomb  
And the eternal sands of time will run their course  
Just like a headless horseman without a horse  
And I don't care what any of this means  
When I hit the iceberg, the iceberg sinks  
I don't need your gravity  
So, go ahead and slap your big X on me.

Our corporate masters made profits  
From the re-usable nightmare  
The action news correspondent displays his marvelous  
shiny hair  
He said "it's getting a little bit stuffy in here, now don't  
you think?  
But never fear, the weekend's here now, dive into your  
creek for more"

Doom and doom and doom and gloom  
Judgment day is surely coming soon  
All bad boys and girls stay in their room  
Even though this story is about you

fate surely wont be determined without you  
And the eternal sands of time will run their course  
Just like a headless horseman without a horse.
