If money talks then I'm a mime  
If time is money then I'm out of time  
And I was once worth a million quid  
Have a seat I'll tell you what I did

Can't sit down 'cos I'm a dancer  
And you know that I'm the answer  
Die slow, die fast now  
'Cos it's never gonna last now

We'll karaoke all night long  
We'll Macarena 'til the break of dawn  
We'll drive around 'til the morning light  
All night... all night... all night... all night

Baby you've got to signal before you turn  
I think you're headed for the disco burn  
'Cos the future is in the future  
And the past is a thick brick wall  
You know I need to make you understand now  
I'm a man not a disco ball!

Can't sit down 'cos I'm a dancer  
And you know that I'm the answer  
Die slow, die fast now  
Because it's never gonna last now

We'll karaoke all night long  
We'll Macarena 'til the break of dawn  
We'll drive around to the morning light  
All night... all night... all night... all night... all night

We'll karaoke all night long  
We'll Macarena 'til the break of dawn  
We'll drive around 'til the morning light  
All night... all night... all night... all night  
All night... all night... all night... all night  
All night... all night... all night... all night  
All night... all night... all night... all night  
All night... all night... all night... all night
