she never walks beside you  
always a step ahead  
you never see her coming  
till she fades away

moving a little faster  
you'll never catch her on the floor  
and like a freight train humming  
that speed girl's coming back for more

she makes her heart beat fast  
with just a single pill  
the only way to catch her  
it's with a twenty dollar bill

moving a little faster  
you'll never catch her on the floor (for sure)  
and like a freight train humming  
that speed girl's coming back for more

and like a freight train humming  
that speed girl's coming back for more

yea, she comes

faster, faster, faster

and like a freight train humming  
that speed girl's coming back for more
