Something's not quite right  
Something evil in the air tonight  
You feel desire burning  
The cold sweat of unclean yearning  
I'm in the shadow of your mind  
In the realm of dreams you'll find  
That I am of your flesh  
Born of your lust  
I'm your demon lover  
Incubus!

I'm a bat out of hell  
And I'm coming for you  
I'm your worst nightmare  
I'm your darkest dream come true

Incubus!  
I come to you in your sleep  
When the morning comes  
You find blood on your sheets  
I will possess you body and soul  
You're under my control

I'm the angel of death  
With amphetamine eyes  
I'm the sinking feeling  
Between your thighs  
Deeper inside until I reach your heart  
Then piece by piece I tear you apart

I will possess you  
Body and soul  
Your destruction  
Has become my goal  
I'm a bat out of hell  
And I'm coming for you  
I'm your worst nightmare  
I'm your darkest dream come true
