Well her sister used to hate it,
So I never thought she'd make it.
But she threw you all
Supposing in a spangle wrapper.

She will let you stroke her head,
But if you move away your dead.
She just break you up
Before you realize it's happened.

Chorus:
But she can really do the brontosaurus
And she can scream the heeby jeeby for us.
Until you know what she's really got
'cos she can do it loud
Well, she can do it, do it, do it!

Now her daddy's getting old
And he seemed to lose control
When the brontosaurus
Stormed into the house to trap her.

Well her sister used to hate it
So I never thought she'd make it.
Until she shook you up
Exactly like a firecracker

Chorus:
Really do the brontosaurus
And she can scream the hee-by jee-by for us.
Well you know she can really rock
So do it, do it now.
