Everywhere, the sun is shining
All around the world, it's shining
But cold winds blow across your mind

(Confusion) it's such a terrible shame
(Confusion) you don't know what you're saying
You've lost your love and you just
Can't carry on (can't carry on)
You feel there's no one there
For you to lean on (to lean on)

Every night you're out there, darling
You're always out there running
And I see that lost look in your eyes

(Confusion) I don't know what I should do
(Confusion) I leave it all up to you
You've lost your love and you just
Can't carry on (can't carry on)
You feel there's no one there
For you to lean on (to lean on)

Dark is the road you wander
And as you stand there
Under the starry sky
You feel sad inside

(Confusion) you know it's driving me wild
(Confusion) it comes as no big surprise
You've lost your love and you just
Can't carry on (can't carry on)
You feel there's no one there
For you to lean on (to lean on)

Confusion, confusion...
