Climb aboard with me baby
We gotta give this thing a start
Go rocking into the feature film
And well rip the seats apart
But if you gotta treat me wrong
Don't mess me up
Well stop in the side sweet baby
And give your heart a check
Well don't mess me cause you might get
My finger burns around your neck
So if you gotta treat me wrong
Don't mess me up
The pink champagne I brought you baby
You emptied every drop
Don't you try to chain me up
But I have make you stop
I'm giving in to you baby
And take you to the party hop
Your sure to cause a scene
In your red blue jeans
And we dance till five oclock
But if you gotta treat me wrong
Dont mess me up
Don't mess me up like that
The cold champagne I brought you baby
You emptied every drop
Dont you try to chain me up
But I have to make you stop
Climb aboard with me baby
We gotta give this thing a start
Go rocking into the feature film
Then well rip the seats apart
But if you gotta treat me wrong
Don't mess me up
But if you gotta treat me wrong
Don't mess me up
Well if you gotta treat me wrong
Don't mess me up
Don't mess me up no more
